

CapCat Ragu (Catarina Carneiro de Sousa), Portugal

During the months September and October 2010 we introduced to you the artwork of the committed artist CapCat Ragu. Working on several projects she is a very talented artist. In Second Life she is creating virtual environments, her pictures - mostly published on [flickr.com](#) - are attracting a widespread attention.

maternity by CapCat Ragu

On flickr.com there is an important community of artists, publishing their pictures based on Second Life. Some of them are only anonymous, publishing their work on flickr.com, others take the opportunity of performing their art outside the virtual world also. Important members out of this community are for example [Ariel Brearly](#), [Meilo Minotaur](#) and [Fingers Scintilla](#), beside [CapCat Ragu](#) and many other talented artists.

The exhibition is one more possibility to introduce to you a new kind of artists' networking out of virtual worlds. Its following up our last project «Cornucopia Momentum» documented on [YouTube](#).
